

Restrictions to Weight of Single Piece of Checked Baggage on all Malaysia Airlines Services

Below, are the check-in baggage allowances permitted on board Malaysia Airlines:

First Class – 40kgs
Business Class – 30kgs
Economy Class – 20kgs

To comply with Global Health and Safety regulations for baggage handlers, Malaysia Airlines has imposed a strict ruling to ensure that each single piece of item or baggage that is checked-in DOES not exceed 32kgs (70 lbs). This is effective 1st March 2008.

Irrespective of class of travel, any single piece of baggage weighing more than 32 kgs will not be accepted at check-in counters at any station. Customers will be required to reduce the weight by re-packing the baggage into smaller units before they are allowed to check-in. This regulation equally applies to transit baggage.

We recommend that items exceeding 32kgs such as bulky musical instruments, sports equipment, photo & film camera equipment etc. should be sent through **MASkargo**, our cargo service. Here are the details of our MASkargo for customer departing from Kuala Lumpur. Please connect directly with them with your requirements at least 2 days before your departure date.
