The war between men and apes continues in this third instalment of the Planet of the Apes series. Before they can start on their journey, their command base is attacked by a rogue paramilitary faction known as Alpha-Omega, led by a ruthless Colonel. AUDIO HIGHLIGHTS

Malaysian rapper, record producer, lyricist and composer **Malique**'s hip hop album *TKO: Pejamkan Mata* is playing onboard this month. *Going Places* caught up with the talented musician for a chat.

When did you know you wanted to be a musician?

After important people started saying my self-written demos were not bad at all, and that I should try doing music professionally.

Who has inspired you to become the successful artist you are today?

I was inspired by multi-millionaire idol rappers on one side and loyal fans on the other.

What is your song writing process like?

I start with a good beat, then I find a nice hook for the chorus. Then I finish up with three 16 bar rap verses.

What inspired you when you wrote the album TKO: Pejamkan Mata?

The things that happened around me in the seven years it took to complete the album. Mostly my own growth as a person, husband and father.

You are known to be a perfectionist. Do you see this as a strength or weakness?

Both. A strength because at the end of the day, the final product will definitely be good. A weakness because the process takes longer and it's more tedious just to get things right.

Where do you see yourself 10 years from now?

Ten years from now I see myself producing music for other Malaysian artists in a studio on my private island.

Any word of advice for someone who wants to make it in the music industry here?

Don't write the type of songs that you hear on the radio. Write the type of songs that you want people to hear on the radio.
