All refunds will be subject to government laws, rules, regulation or orders of the country in which the ticket

was originally purchased and of the country in which the refund is being made. - (c) Special handling by carrier
Carrier will make all or any individual refunds through its general accounting offices or regional sales or accounting offices, and will require prior written applications for refunds to be prepared by passenger on special forms furnished by carrier.
- (d) Involuntary refunds
See also rule 80 (involuntary revised routings) and rule 87 (denied boarding compensation) - for the purpose of this paragraph, the term involuntary refund shall mean any refund to a passenger who is prevented from using the carriage provided for in his ticket because of cancellation of flight, inability of carrier to provide previously confirmed space, substitution of a different type of equipment or different class of service by carrier, missed connections, postponement or delay of flight, omission of a scheduled stop, or removal or refusal to carry under conditions prescribed in rule 25. Involuntary refunds will be computed as follows:
 - (1) when no portion of the trip has been made, the amount of refund will be equal to the fare paid.
Exception: Carrier shall not be obligated to refund any portion(s) of a fully unused ticket which does not reflect a confirmed reservation on said carrier's flight involved in a schedule irregularity unless such ticket was issued by that carrier.
 - (2) when a portion of the trip has been made, the amount of refund will be:
 - (a) Either an amount equal to the one way fare less the same rate of discount, if any, that was applied in computing the original one way fare (or on round or circle trip tickets, one half of the round trip fare) and charges applicable to the unused transportation from the point of termination to the destination or stopover point named on the ticket or to the point at which transportation is to be resumed, via:
 - (i) The routing specified on the ticket, if the point of termination was on such routing; or

- (b) The difference between the fare paid and the fare for the transportation used, whichever is higher.

Exception: When a passenger holding a ticket for carriage for a higher class of service between an origin and a destination is required by carrier to use a lower class of service for any portion of such carriage, the amount of refund will be as follows:

- (1) For one way tickets: the difference between the fare for the higher class of service and the fare for the lower class of service between the points where the lower class service is used;
- (2) For round trip, circle trip or open jaw tickets: the difference between 50 percent of the round trip fare for the higher class of service and 50 percent of the round trip fare for the lower class of service between the points where the lower class of service is used.

For the purpose of this exception fares are published in the following descending order of classes of service:

(see rule nos. 60 (reservations) and 65 (tickets)).
- (3) When the refunding of any portion of a ticket would result in the use of such ticket between any points where the carriage of traffic is prohibited the refund, if any, will be determined as if such ticket has been used to a point beyond which would not result in the violation of carrier's operating rights or privileges. The passenger will be refunded the difference between the fare paid from the points of origin to such farther point and the total fare paid, less any applicable charges.
- (4) A penalty for voluntary cancellation shall not apply and the total amount paid shall be refunded if such cancellation is made after an increase in the fare is made applicable between the time of the initial payment and the date of travel.

Rule 116 Interline Baggage Acceptance

Issued: October 26, 2019 Effective: October 27, 2019

(A) Applicability

This rule is applicable to all interline itineraries issued on a single ticket whose origin or ultimate ticketed destination is in Canada. It establishes how MH will determine which carrier's baggage rules apply to any passenger's entire interline itinerary.

(B) General

For the purposes of interline baggage acceptance:

- (1) The carrier whose designator code is identified on the first segment of the passenger's interline ticket will be known as the selecting carrier.
- (2) Any carrier who is identified as providing interline transportation to the passenger by virtue of the passenger's ticket will be known as a participating carrier.

(C) Baggage rule determination by selecting carrier

(1) Checked baggage

The selecting carrier will:

- (a) Select and apply its own baggage rules as set out in its tariff to the entire interline itinerary; or
- (b) Select the most significant carrier, as determined by IATA resolution 302 and conditioned by the Canadian Transportation Agency, in order for that carrier's baggage rules, as established in its tariff, to apply to the entire interline itinerary.

The carrier identified by means of a) or b) will be known as the selected carrier.

(2) Carry-on baggage

Each operating carrier's carry-on baggage allowances will apply to each flight segment in an interline itinerary. Notwithstanding, the carry-on baggage charges that will apply to the entire interline itinerary will be those of the selected carrier.

(D) Baggage rule application by participating carrier
where MH is not the selected carrier on an interline itinerary but is a participating carrier that is providing transportation to the passenger based on the ticket issued, MH will apply as its own the baggage rules of the selected carrier throughout the interline itinerary.

(E) Disclosure of baggage rules

Summary page at the end of an online purchase and e-ticket disclosure

- (1) For baggage rules provisions related to a passenger's 1st and 2nd checked bag and the passenger's carry-on baggage (i.e. the passenger's "standard" baggage allowance), when the carrier sells and issues a ticket for an interline

itinerary, it will disclose to the passenger on any summary page at the end of an online purchase and on the passenger's itinerary/receipt and e-ticket at the time of ticketing the baggage information relevant to the passenger itinerary as set out in paragraph 2 below. The disclosed information will reflect the baggage rules of the selected carrier.

- (2) The carrier will disclose the following information:
- (a) Name of the carrier whose baggage rules apply;
 - (b) Passenger's free baggage allowance and/or applicable fees;
 - (c) Size and weight limits of the bags, if applicable;
 - (d) Terms or conditions that would alter or impact a passenger's standard baggage allowances and charges (e.g. frequent flyer status, early check-in, pre-purchasing baggage allowances with a particular credit card);
 - (e) Existence of any embargoes that may be applicable to the passenger's itinerary; and,
 - (f) Application of baggage allowances and charges (i.e. whether they are applied once per direction or if they are applicable at each stopover point).
- (3) The carrier will provide this information in text format on the passenger's e-ticket confirmation. any fee information provided for carry-on bags and the first and second checked bag will be expressed as specific charges (i.e., not a range).

Web site disclosure

The carrier will disclose on its web site, in a convenient and prominent location, a complete and comprehensive summary of all the carrier's own baggage rules, including information concerning:

- (a) The maximum weight and dimensions of passenger bags, if applicable, both checked and unchecked;
- (b) The number of checked and unchecked passenger bags that can be transported and the applicable charges;
- (c) Excess and oversized baggage charges;
- (d) Charges related to check in, collection and delivery of checked baggage;
- (e) Acceptance and charges related to special items, e.g. surf boards, pets, bicycles, etc.;
- (f) Baggage provisions related to prohibited or unacceptable items, including embargoes;
- (g) Terms or conditions that would alter or impact the baggage allowances and charges applicable to passengers (e.g. frequent flyer status, early check in, pre-purchasing baggage allowances with a particular credit card); and,
- (h) Other rules governing treatment of baggage at stopover points, including passengers subject to special baggage allowances or charges etc.

(F) Definitions

"Airline designator code"

An identification code comprised of two-characters which is used for commercial and traffic purposes such as reservations, schedules, timetables, ticketing, tariffs and airport display systems. airline designators are assigned by IATA. When this code appears on a ticket, it reflects the carrier that is marketing the flight, which might be different from the carrier operating the flight.

"Baggage rules"

The conditions associated with the acceptance of baggage, services incidental to the transportation of baggage, allowances and all related charges. for example, baggage rules may address the following topics:

- The maximum weight and dimensions of passenger bags, if applicable, both checked and uncheck;
- The number of checked and uncheck passenger bags that can be transported and the applicable charges;
- Excess and oversized baggage charges;
- Charges related to check-in, collection and delivery of checked baggage;
- Acceptance and charges related to special items, e.g. surfboards, pets, bicycles, etc.;
- Baggage provisions related to prohibited or unacceptable items, including embargoes;
- Terms or conditions that would alter or impact the baggage allowances and charges applicable to passengers (e.g. frequent flyer status, early check-in, pre-purchasing baggage allowances with a particular credit card); and,
- Other rules governing treatment of baggage at stopover points, including passengers subject to special baggage allowances or charges, etc.

"Interline agreement":

An agreement between two or more carriers to co-ordinate the transportation of passengers and their baggage from the flight of one air carrier to the flight of another air carrier (through to the next point of stopover).

"Interline itinerary":

All flights reflected on a single ticket involving multiple air carriers. Only travel on a single ticket is subject to the agency's approach provided the origin or the ultimate ticketed destination is a point in Canada.

"Interline travel":

Travel involving multiple air carriers listed on a single ticket that is purchased via a single transaction.

"Single ticket":

A document that permits travel from origin to

Tariff: MH1 CTA No. 355 DOT No. 562
Carrier: Malaysia Airlines - MH

destination. It may include interline/code-share and intra-line segments. It may also include end-to-end combinations (i.e., standalone fares that can be bought separately but combined together to form one price).

"Summary page at the end of an online purchase":
A page on a carrier's web site which summarizes the details of a ticket purchase transaction just after the passenger has agreed to purchase the ticket from the carrier and has provided a form of payment.

"Ultimate ticketed destination":
In situations where a passenger's origin is a non-Canadian point and the itinerary includes at least one stop in Canada, as well as at least one stop outside Canada. If the stop in Canada is the farthest checked point and the stop is more than 24 hours, the agency would consider the ultimate ticketed destination to be Canada.

Carrier definitions (various)

"Down line carrier":
Any carrier, other than the selecting carrier, who is identified as providing interline transportation to the passenger by virtue of the passenger's ticket.

"Marketing carrier":
The carrier that sells flights under its code.

"Most significant carrier (MSC)":
Is determined by a methodology, established by IATA (resolution 302), which establishes, for each portion of a passenger's itinerary where baggage is checked through to a new stopover point, which carrier will be performing the most significant part of the service. For travelers under the resolution 302 system, the baggage rules of the MSC will apply. For complex itineraries involving multiple checked baggage points, there may be more than one MSC, resulting in the application of differing baggage rules through an itinerary.

"Most significant carrier (MSC)-IATA resolution 302 as conditioned by the agency":

In this instance, the MSC is determined by applying IATA resolution 302 methodology as conditioned by the agency. The agency's reservation has stipulated that only a single set of baggage rules may apply to any given interline itinerary. The aim of the agency's reservation is to allow the selecting carrier to use the MSC methodology to determine which carrier's baggage rules apply to an international interline itinerary to or from Canada, while reinforcing the role of tariffs in the determination of which carrier's rules apply.

"Operating carrier":
The carrier that operates the actual flight.

"Participating carrier(s)":
Includes both the selecting carrier and down line carriers who have been identified as providing

Tariff: MH1 CTA No. 355 DOT No. 562
Carrier: Malaysia Airlines - MH

interline transportation to the passenger by virtue of the passenger's ticket.

"Selected carrier":

The carrier whose baggage rules apply to the entire interline itinerary.

"Selecting carrier":

The carrier whose designator code is identified on the first segment of the passenger's ticket at the beginning of an itinerary issued on a single ticket whose origin or ultimate destination is in Canada.

 - (1) Combination of first class and economy class where the journey from point of origin to point of destination is partly in first class service and partly in economy class service, the applicable fare shall be constructed as follows, but in no event shall such constructed fare exceed that provided in note. Where a through one-factor fare for economy class service is published from point of origin to point of destination the applicable fare shall be such through one-factor fare, plus the difference between the first class and normal economy fares between the points where first class service is used.

Note: Fares constructed in accordance with the above provisions for the same class of service shall not exceed the through published fare via a higher class of service via the same carrier(s) between and via the same points; or fares constructed in accordance with the above provisions for different classes of service shall not exceed the through published fare for the highest class of service actually used nor the through published fare for a higher class of service than either of the classes of service used, via the same carrier(s) between and via the same points.
for the purpose of this note only, fares are published in the following descending order of classes of service:
 - (a) First class fares applicable on jet aircraft.
 - (b) Economy class fares.the term "jet aircraft" as used above means A-300, B-747 and DC-10.
 - (2) combining domestic U.S. special fares with international fares

- (a) A special fare application within the U.S.A. may be combined with an international fare to construct a through fare, which is less than the published fare from the points of origin to the point of destination, provided that:
- (i) The passenger complies with all conditions (for example, period of validity, minimum/maximum stay, advance purchase requirements, group size, etc.) of the special fare;
Exception: Any minimum tour price required by the special fare within the U.S.A. will not be applicable when the fare is combined with an international inclusive tour fare having a minimum tour price of the same or a higher amount.
 - (ii) The passenger traveling under a fare constructed in accordance with this paragraph may be routed via any gateway city regardless of the fare construction point(s).
- (b) Mileage routings set forth in MPM-1, C.A.B. no. 424 (published by airline tariff publishing company, agent) may be applied to a fare constructed under paragraph (a) above, either for the entire journey between the point in the U.S.A. and the point in area 2 or 3/or between the gateway point and the point in area 2 or when the international fare used is published with a mileage routing.
- (c) When travel is via a higher rated intermediate point, the applicable fare for the itinerary will be the highest of the fares applicable between such intermediate point and:
- (i) The point of origin of the itinerary, or
 - (ii) The point of destination of the itinerary, or
 - (iii) Another intermediate point of the itinerary.
- (d) Notwithstanding paragraph (c) above, when a passenger purchases a one way ticket for transportation via a higher rated intermediate point, the fare for such transportation will be constructed by calculating the round trip fare for transportation via the higher rated intermediate point and subtracting therefrom the one way fare for direct (not involving a higher rated intermediate point) transportation between the points involved.
- (D) Round trip fares
General
When a round trip ticket is purchased prior to

commencement of carriage, the fare for a round trip will be the round trip fare published in the applicable tariff(s) of carrier via the desired routing and for the class of service used.

(E) Circle trip fares

When a circle trip ticket is purchased prior to commencement of carriage, the fare for such circle trip shall be the sum of fifty percent of the applicable round trip fares for the class of service to be used for the respective sections of carriage, constructed from point of origin via the desired routing, that produces the lowest fare for the circle trip; provided that:

- (1) Fares which by their terms are not combinable with other fares, shall not be used in the construction of circle trip fares; and
- (2) If the fare for a circle trip traveled in one class of service constructed as specified above is less than the highest direct route round trip fare applicable to the same class of service between any two points on the circle trip route, such highest direct route round trip fare shall apply; and

Exception: This provision shall not apply to circle trip fares constructed for carriage completely around the world in the same general direction.

- (3) The fare for a circle trip traveled partly in one class of service and partly in another class of service shall be constructed in accordance with the provisions herein.
- (4) The shortest validity period applicable to any fare used shall apply to the entire circle trip.
- (5) The last fare component used inbound to the country of origin must be the fare applicable to such component from the country of origin.

(F) Open jaw trip fares

When a ticket is purchased prior to commencement of carriage for an open jaw trip, the fare for such open jaw trip will be constructed as follows:

- (1) when the point of departure and final destination are the same the sum of fifty percent of the applicable round trip fare from the point of departure to each outer point of the jaw, and,
- (2) where the points of departure and final destination are not the same, the sum of fifty percent of the applicable round trip fare from the point of departure to the outer point of the outward section plus fifty percent of the round trip fare from the point of destination to the outer point of the inbound section.

(G) Round and circle trip fares partly via carrier

- (1) Entirely via air

When a ticket is purchased prior to commencement of carriage for a round or circle trip which is

partly via the services of carrier and partly via the services of other scheduled air carrier(s), the fare for each sector of carriage via carrier will be fifty percent of the applicable round trip fare for such section of the round or circle trip, as the case may be.

- (2) Partly via air and partly via sea
When tickets are purchased prior to commencement of carriage for a round trip or circle trip for combined air and sea travel, the air fare for each one way section of the air journey will be fifty percent of the all year round trip fare published in tariffs governed by this tariff and applicable between the points and via the class of service used. A break in the round trip or circle trip is permitted to allow passengers to make their own way by any means of transportation between airports and adjacent seaports.
the fares specified above will apply only via the routings published in connection with the all year fares in tariffs making reference to this tariff for governing provisions, except that when an excursion fare is used, the routing published in connection with such excursion fare will apply.

- (H) Routing
Unless otherwise provided in carrier(s) tariffs, fares apply in either direction and only to the services and routings of carrier(s) published in connection therewith; provided that routings via a point for which a higher fare is applicable will not be permitted unless such higher fare is assessed. If there is more than one routing at the same fare the passenger, prior to issuance of the ticket, may specify the routing, and in respect to any open date portion of such ticket, may specify optional routings; if no routing is specified, carrier may determine the routing.
- (I) Ground transfers
Published fares do not include ground transfer service between airports and between airport and town centers unless carrier's tariffs specifically provide that such ground transfer service will be furnished without additional charge. (see rule 30 herein.)

Combination of local currency fares
To combine two or more local currency fares, convert all local currency fares into the currency of the country of commencement of transportation.
- Step 1: (a) Establish the NUC amount for each local currency fare by dividing the local currency fare by the applicable IATA Rate of Exchange (ROE) shown in the Currency Conversion Table below for the country in which the currency is denominated.
- (b) Calculate the resultant amount to two decimal places, ignoring any further decimal places.
- Step 2: Add the resultant NUC amounts for the sectors involved.
- Step 3: (a) Established the through local currency

fare by multiplying the total NUC amounts (derived from Steps 1, 2, and 3 above) by the IATA Rate of Exchange (ROE) shown in the currency conversion table below for the country of commencement of travel.

- (b) Calculate the resultant amount of one decimal place beyond the number of decimal places shown next to the local currency in the conversion table below, ignoring any further decimal places.
- (c) Round up to the next higher rounding unit shown next to the local currency in the currency conversion table, unless otherwise indicated.

Exception: when an international ticket is comprised of all domestic fare components, but within different countries, the provisions outlined above shall apply.

Other Charges

Other charges shall be separately converted to the currency of the country of sale using the Bankers' Selling Rate using the rounding units shown next to other charges in the currency conversion table.

MCOs for unspecified transportation and PTAs.

MCOs for unspecified transportation and PTAs when honored for payment of Air transportation shall be subject to the provisions of Rule 75 (Currency of Payment). The country of payment of the PTA or MCO shall be considered the country of original issue and determine construction Rules to apply.
